

DeDust™

BioSpan

DeDust™: The Smarter, Safer Solution for Dust Control

DeDust™ is the ultimate calcium chloride-free dedusting agent, designed to outperform traditional methods while prioritizing safety and sustainability. Perfect for a wide range of applications, DeDust™ offers an environmentally friendly and economical approach to controlling dust with 50% biobased resources.

Typical Uses

Suitable for gravel and dirt roads, or other dusty surfaces

Packaging

Available in 55 gallon drums and 275 gallon totes

Key Features

Superior Performance

Outperforms calcium chloride with no risk of dust inhalation during application.

Eco-Friendly Formula

Contains 50% biobased materials and adds no chlorine to the environment

Equipment-Friendly

Gentle on machinery, reducing wear and tear

Benefits

Completely Soluble

Mixes effortlessly with water for a smooth application process

Non-Toxic and Safe

Protects users, equipment, and the environment

Easy Application

Requires no special applicators, making it user-friendly and efficient.

How to Use DeDust

DeDust is made ready to apply. Simply drench the surface with any spray applicator after every heavy rain event to control dust. Applications range between 0.65 to 1.25 gallons per square yard, dependent upon soil types and moisture content.
